

## insoft Locator Node Dongle

The insoft Locator Node Dongle differs from the insoft Locator Node 1400 in its more compact design and the type of data communication. The Locator Node Dongle is restricted to Wi-Fi network connections and can be powered by any USB power source, like an access point, and thus impresses with its simple and uncomplicated functionality. With the insoft Locator Node Dongle, both people and assets can be detected using Bluetooth Low Energy (Bluetooth 5). It also provides the gateway functions (bidirectional information exchange) for Locator Beacons and the E-Ink infrastructure hardware.

### Technical Features:

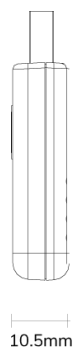

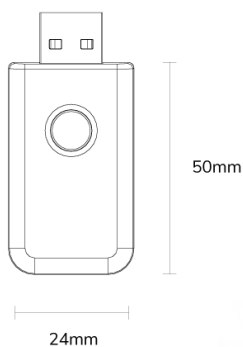

**Dimensions:** approx. 50 x 24 x 10,5 mm (LxWxH)

**Weight:** 9g

**Sensors:** Wi-Fi, Bluetooth Low Energy (BLE) 5

**Certification:** CE, FCC

**Price:** unit price €90
