

## E-Ink Display 11.6"

The 11.6" infsoft E-Ink Display is based on the Bluetooth Low Energy 5.0 technology and provides fully graphic, energy-efficient content display with a wide viewing angle of nearly 180° – ensuring optimal readability from various perspectives. Content can be updated quickly, wirelessly, and reliably. Thanks to its large display area, the device is ideal for use cases that require high information density or increased visibility – such as displaying floor plans, room overviews, or serving as digital signage in high-traffic areas. In industrial environments, the display can also be used to label production zones, storage areas, or to visualize complex process information.

### TECHNICAL FEATURES

Dimensions: 271.8mm x 196.2mm x 14.2mm

Screen size: 11.6" / 244.5 x 163mm
