

E-Ink Display 2.13"

The 2.13" infsoft E-Ink Display is based on the Bluetooth Low Energy 5.0 technology and is ideally suited for compact, digital labeling and information display solutions. Utilizing advanced E-Ink display technology, it enables fully graphic content along with flexible and efficient content updates. A wide viewing angle of nearly 180° ensures excellent readability from various perspectives.

Smaller display sizes are particularly versatile in office environments – for example, for digital locker labeling or as status displays on technical equipment.
