status: disconnection order, rework

E-Ink Display 2.9" incl. button

The 2.9" infsoft E-Ink Display with integrated button is based on the Bluetooth Low Energy 5.0 technology and combines fully graphic information display with direct user interaction. Modern E-Ink display technology enables a clear, energy-efficient presentation of content. A wide viewing angle of nearly 180° ensures optimal readability from multiple perspectives. The integrated button enables use cases such as digital shelf labeling in industrial environments. With a simple press, material re-orders can be triggered directly on-site – efficient, paperless, and seamlessly integrated into existing processes.
