

E-Ink Display 4.2"

The 4.2" infsoft E-Ink Display is based on the Bluetooth Low Energy 5.0 technology and provides fully graphic, energy-efficient information display with a near 180° viewing angle for optimal readability. Display content can be updated flexibly and reliably – ideal for dynamic environments.

The display is used in both industrial and office-related applications. Typical use cases include functioning as a digital traveler document on material trolleys or storage bins, as well as for flexible labeling of functional rooms such as technical areas, printer zones, or storage spaces.
