

## E-Ink Display 5.83"

The 5.83" infsoft E-Ink Display is based on the Bluetooth Low Energy 5.0 technology and delivers a fully graphic, energy-efficient information display with a viewing angle of nearly 180° for optimal readability. Content can be updated wirelessly with reliability and flexibility.

The display offers versatile application options in both industrial and office environments – for example, as a digital job traveler, shelf labeling solution, or for displaying storage locations. In office settings, it is ideal for room signage or as a compact floor directory.
