

E-Ink Display 7.3" (6-color)

The 7.3" infsoft E-Ink Display with enhanced color rendering is based on the Bluetooth Low Energy 5.0 technology and provides fully graphic, energy-efficient content display with a wide viewing angle of nearly 180° – ensuring optimal readability from various perspectives. Thanks to wireless transmission, content can be updated quickly and flexibly. With its size and color capability, the display is ideally suited for digital signage in meeting rooms, especially in environments where additional visual cues (e.g., status indicators or room occupancy) are beneficial. It can also be effectively used as a floor plan overview, displaying layouts, wayfinding elements, or emergency escape routes.

TECHNICAL FEATURES

Dimensions:	182.5 x 128.9 x 17.1 mm
Screen size:	7.3" / 160 x 96 mm
