# E-Ink Display 13.3" (6-color)

The 13.3" infsoft E-Ink Display with enhanced 6-color rendering is based on the Bluetooth Low Energy 5.0 technology and offers fully graphic, energy-efficient content display with a wide viewing angle of nearly 180° – ensuring optimal readability from various perspectives. Content can be updated quickly, wirelessly, and reliably. With its large display area and color capabilities, this model is ideal for use cases that require high information density and visual structure – such as floor plans, room occupancy overviews, emergency escape routes, or color-coded signage in high-traffic areas. In industrial settings, the display can also be used for clearly structured process visualization, zone labeling, or color-prioritized status information.

TECHNICAL FEATURES

Dimensions:	304 x 233 x 10.3 mm
Screen size:	13.3" / 268.8 x201.2 mm
Display resolution:	1600 x 1200 px, 150 DPI
Color:	black, paperwhite, red, yellow, blue, green
LED indicator:	(RGB)
Protection class:	IP65
Certification:	CE, FCC
Battery:	Polymer lithium battery, 4000 mAh (rechargeable via USB-C)
Installation:	Thin plastic holder for adhesive mounting or screwed mounting
Unit price:	€290
