

infsOFT Sensors

infsOFT Sensors

infsOFT Sensors is an HTML5-based service that enables the visualization of condition data in real time based on different sensor technologies (such as ultrasound, infrared, temperature, pressure, humidity and CO₂) connected to the infsOFT LocAware platform®.

infsOFT Sensors | Purpose:

- Condition monitoring in real time
- Presence detection and people count
- Smart room operation
- Energy management

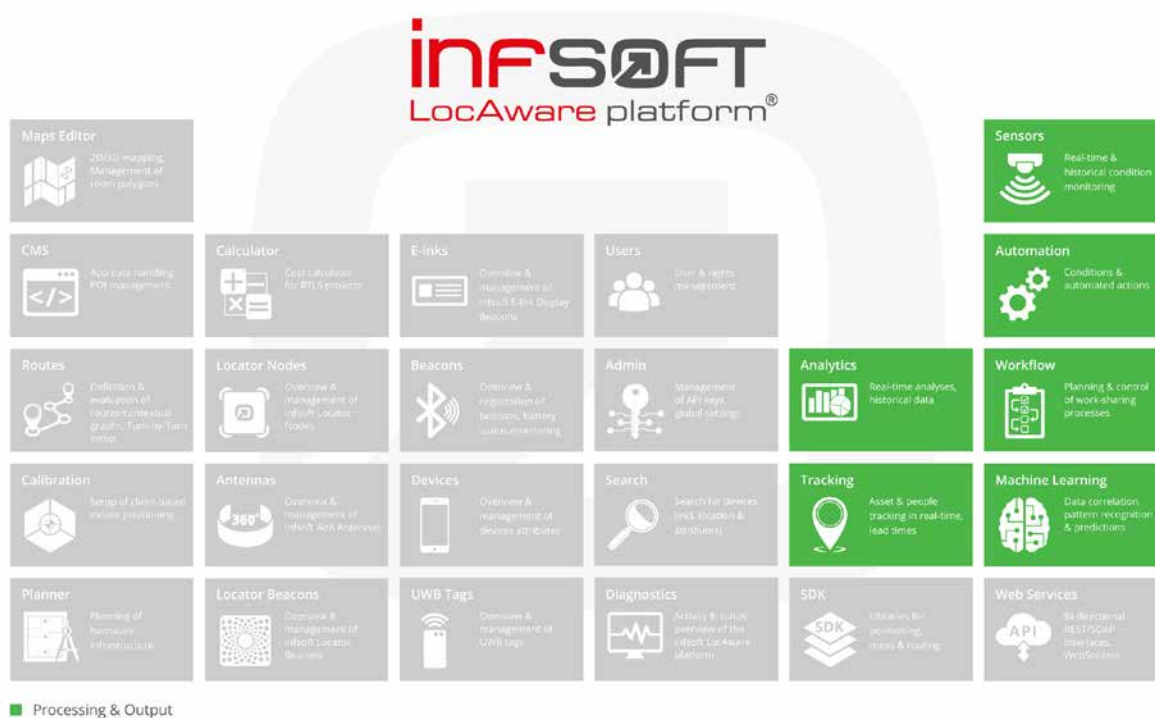

infsOFT Sensors | Features:

- Customizable dashboards via scripting engine (Java based)
- Visualization of device positions outdoor/indoor on different floor levels
- Real-time data of the last 15 minutes
- Presence detection & evaluation of number of people
- Visualization of different sensor device types in list format
- Display of current status and extreme values
- Support of web services (REST/SOAP)

insoft Sensors | Related services:

insoft Sensors can exchange information bidirectionally with the following insoft services:

- insoft Analytics
- insoft Tracking
- insoft Automation
- insoft Workflow
- insoft Machine Learning

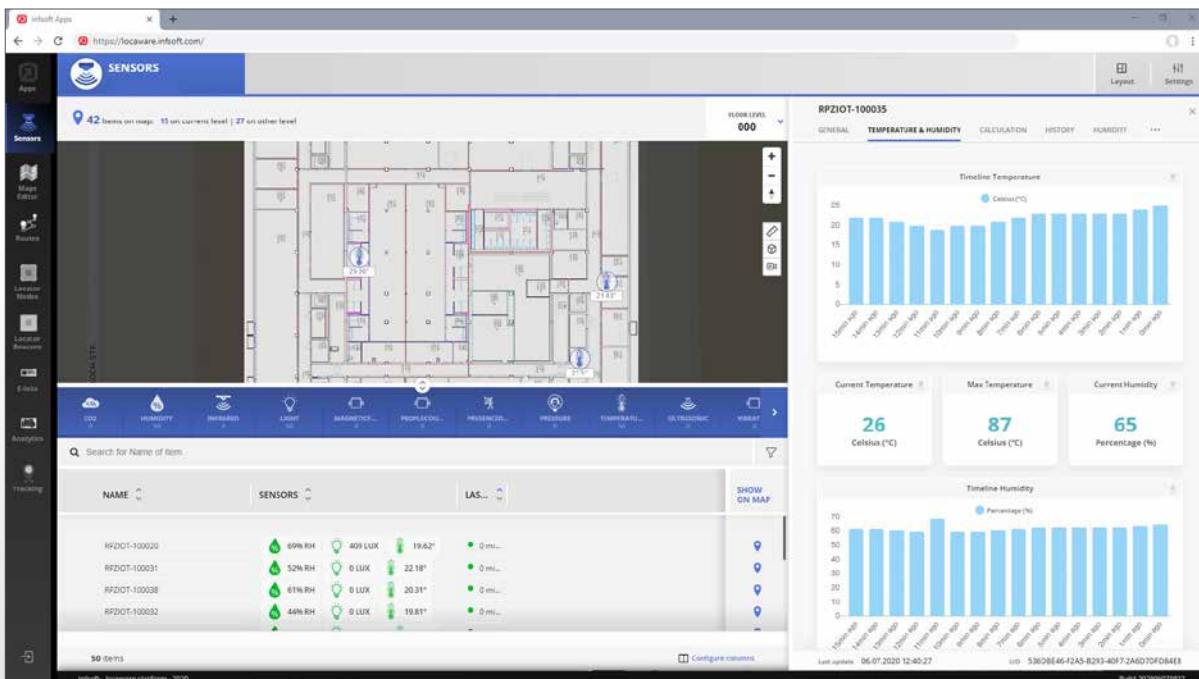

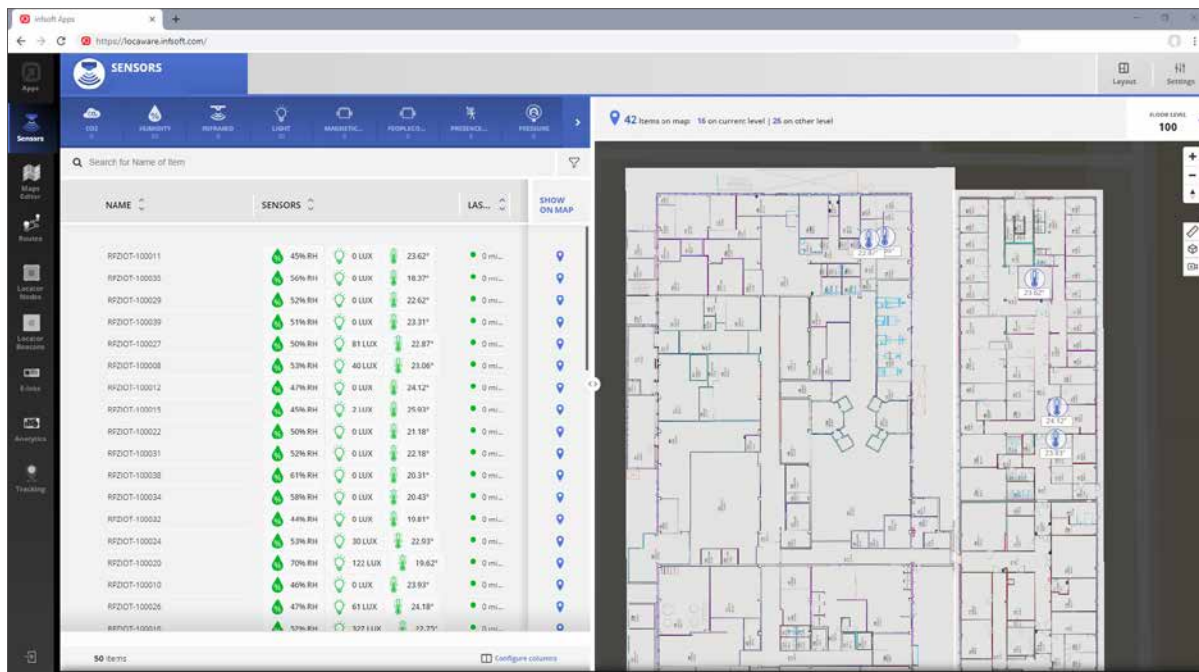

insoft Sensors | Requirements:

The HTML5 service does not require an installation on the user's PC and is compatible with the following browser versions:

- Chrome (Version 47.0.2526 or newer)
- Firefox (Version 34.0 or newer)
- Safari (Version 7.0 or newer)
- Internet Explorer (Version 11 or newer)
- Edge (Version 13.10122 or newer)
